-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Office Action

Status of the Claims

Acknowledgement is hereby made of receipt and entry of the communication file 01 March, 2007. Claims 1-9 are currently under examination and claims 19-30 stand withdrawn from further consideration by the examiner, pursuant to 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention.

37 C.F.R. § 1.84

Acknowledgement is hereby made of receipt and entry of the drawing filed on 01 March, 2007, which is deemed to be acceptable.

37 C.F.R. § 1.48

In view of the papers filed 03 June, 2005, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 C.F.R. § 1.48(a). The inventorship of this application has been changed by adding Huyi Zhang as an inventor. The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

35 U.S.C. § 112, Second Paragraph

The previous rejection of claims 1-9 under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter

which applicant regards as the invention, is hereby withdrawn in response to applicants' amendment.

35 U.S.C. § 103(a)

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-9 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Bridon et al. (2000), in view of Nitecki et al. (1990). Bridon and colleagues provide polypeptides derived from the HR1 and HR2 regions of HIV-1 gp41. This teaching does not disclose peptide-PEG conjugates. However, Nitecki and associates provide polypeptide-PEG conjugates with reduced immunogenicity, increased solubility, and increased *in vivo* circulation. Therefore, it would have been *prima facie* obvious to one of ordinary skill in the art at the time of the invention to conjugate the HR1, HR2, or both HR1 and HR2 antiviral polypeptides of Bridon et al. (2000) to PEG, since Nitecki et al. (1990) teach that polypeptide-PEG conjugates have several favorable properties.

Correspondence

Any inquiry concerning this communication should be directed to Jeffrey S. Parkin, Ph.D., whose telephone number is (571)
